To: STEP Sponsors

Re: Science and Technology Education Partnership (STEP)

We are writing to thank you for supporting STEP over the years. Over the last 18 years, STEP has been able to reach over 60,000 students and 6,000 teachers. Our mission has always been to inspire students to seek educations in the STEM fields of mathematics, science, engineering and technology. The success of our area as well as that of the United States depends on us building and maintaining a strong, technologically advanced workforce. That workforce begins with our youth. Technology brings better jobs, better salaries and a better economy for everyone. We have only been able to reach our goals because of the support and commitment from companies like yours, our STEP Partners. We certainly don't take our mission lightly and we are forever grateful for your continued support. We are making a difference with each STEP Conference that engages some 5,000 area students and several hundred teachers in math and science annually.

The STEP Conference will take place in early October 2018 (exact dates to be announced separately) at the Bourns Technology Center in Riverside, CA. We hope that we can count on your support again for this year. The financial support of our STEP sponsors is particularly needed at this time of reduced education budgets. STEP helps our students and schools. We have included a Sponsorship Form and Sponsorship Benefits matrix. If you have any additional questions, please call (714) 925-9062 (Yami) or email [stepsponsorship@myscienceeducation.com](mailto:stepsponsorship@myscienceeducation.com). Remember that STEP is a 501(c)(3) and all donations are tax deductible.

Again, thank you for your continued support of STEP.

Sincerely,

John V. Fishell  
President

# 2018 Sponsorship Benefits

Benefits	Atom \$10,000	Electron \$5,000	Proton \$2,500	Neutron \$1,000
